

Our Purpose & Who we Are:

At Sentec we aim to improve the lives of patients by advancing respiratory monitoring solutions to provide clinicians the continuous insight they need to guide care and – most importantly – improve patient outcomes.

Job Description:

Sentec seeks an energetic candidate for an **Associate Product Manager** for our **Transcutaneous platform**. The ideal candidate will have an established technical or clinical background and must be comfortable communicating with clinicians. Position requires travel to clinical and customer sites throughout North America. This role will operate out of our office in Lincoln, RI.

Essential Duties and Responsibilities:

Lead customer market input and product definition with R&D

- Organize and conduct pre-launch clinical usability trials in conjunction with R&D
- Spearhead formative and summative usability and validation testing
- Systematically solicit and synthesize Voice of Customer feedback
- Define product release functionality and product requirements
- Develop detailed UI and functional requirements with R&D team

Support marketing and commercial efforts

- Support global product launches
- Assist with product documentation and managing product feedback
- Cultivate relationships with Customers, Sales and R&D

Qualifications/Education:

- 1+ years of medical device product management experience
- 5+ years general work experience
- Clinical and technical expertise in medical devices and technology
- Strong written and verbal communication skills, especially presentations

Preferred Skills:

- Pulmonary/respiratory critical care experience
- In-hospital clinical experience or credentials a plus
- Experience in product development
- Excellent critical thinking skills
