For our subsidiary in Budapest we are looking for a

Clinical Research Specialist (f/m/d)

Key tasks

- Manage sponsored and investigator-led clinical studies
- Field and coordinate requests for investigator trial support
- Train and in-service research partners on product
- Lead data analysis in conjunction with R&D team
- Drive and support timely publication of research results

Our offer

- Meaningful activity on products that enable a personalized therapy for patients
- Flat hierarchy, short decision-making processes, interdisciplinary collaboration
- Opportunity to contribute and develop your skills in an agile company

Your profile

- Experience in design and/or execution of clinical studies
- Pulmonary/respiratory critical care experience (preferred)
- Experience with statistical methods and tools
- Skilled in development and maintenance of clinical relationships

We are looking forward to get in touch with you! Please send your complete application documents to jobs@sentec.com.
