We are hiring a

Quality Manager (f/m/d)

Key tasks

- Responsible for the management, improvement, and documentation of the QMS according to ISO 13485, MDSAP, MDR 2017/745 and FDA QSR
- Monitor product performance and drive quality improvements
- Trend reporting to the management board
- Support teams to resolve non-conformities, corrective and preventive actions
- Conduct internal and supplier audits
- Support project teams regarding quality relevant topics

Our offer

- Meaningful work on products that are life saving or support the therapy of patients in an effective manner
- Flat hierarchy, truly interdisciplinary working community
- Opportunity to contribute ideas, speak up and take decisions

Your profile

- Technical education in electrical, mechanical engineering or microtechnology
- Relevant professional experience as a Quality Manager in the medical device or other strongly regulated industry
- Very good German and English skills

Would be great to meet you and to explore whether your plans and ideas may be concurrent with ours!
You can call us or contact us remotely at jobs@sentec.com.
