Connectivity

Integrate the SenTec Digital Monitor into your existing infrastructure for efficient patient surveillance and data recording
Patient Monitoring System (PMS)

The SenTec Digital Monitor offers two digital interfaces for robust and reliable data transmission to a wide range of Patient Monitoring Systems.

Manufacturer	Devices	Required Software Version	Required SenTec Software Version

✓ (orange) PCO2, SpO2, PR
✓ (blue) PCO2, PO2, SpO2, PR
   PO2 monitoring is only supported if
   PO2 channel is enabled and OxiVent™ sensor is connected.
* with Retrospective Correction of Residual Drift

Patient Data Management Systems (PDMS)

The SenTec Digital Monitor can be connected to selected Patient Data Management Systems. We are continuously expanding our connectivity options in this area to simplify your patient data management.

Manufacturer	Devices	Required Software Version	SMB V07.01.x	SMB V07.02.x	SMB V07.03.x	SMB V08.00.x	SMB V08.01.x	SMB V08.02.x	w RCRD *
Capsule by Qualcomm Life	DataCaptor™	SenTec A5.02	✓	✓		✓

	Alice 3/4/5/6: round plug	PSG Cable F
Weinmann_MCC	SOMNOlab, SOMNOlab2	PSG Cable C

Please refer to the SenTec Digital Monitor (SDM) Menu 'Interfaces/Analog Outputs' for 'Channel-to-Parameter' assignment information.
For instructions to interface the SDM with polygraphic or polysomnographic systems please refer to the respective manufacturer's instructions for use and to the chapter 'Analog Outputs' in the Technical Manual for the SDM (HB-005752).

The Technical Manual is available as a PDF on our website under https://www.sentec.com/ifu/

Wide range of connectivity options

The SenTec Digital Monitoring System (SDM) provides a wide range of connectivity options to bedside monitors, ventilators, PCs, nurse call systems, chart recorders or data loggers. Patient data acquired by the SDM can be output through the multipurpose I/O-port (analog output; nurse call) **1**, the serial data port (RS-232) **2** or the LAN port **3**, all located on the rear panel of the SDM.

SenTec Connectivity Support Team

We help you get connected

Our dedicated Connectivity Support Team continuously upgrades and expands connectivity options to advance noninvasive patient monitoring and enhance therapy decisions.

If you need any support, please contact your local SenTec representative or send an e-mail to connectivity@sentec.com.

Please visit www.sentec.com for more information.
