

SenTec is a Swiss medical device company headquartered in the Basel area. We develop, manufacture and market innovative solutions for noninvasive patient monitoring. Learn more about us - watch our company video: <https://youtu.be/oMSD9QspHbE>

To strengthen the international Marketing team, we are looking for a highly motivated

Product Manager

Key tasks

- Analyze market segments and develop positioning and requirements of new products
- Lead interdisciplinary projects from the first idea to the successful market launch
- Initiate clinical application studies
- Develop new product brochures, instruction manuals and videos

Our offer

- Engagement in a rapidly growing Swiss medical device company
- Opportunity to transform your experience and know-how into innovative new products
- Opportunity to team up with experienced thought leaders and interdisciplinary teams
- Opportunity to demonstrate your strength and grow within an agile organization
- Attractive compensation package

Your profile

- A few years of experience either in product management, product development or in a clinical environment, ideally in the field of respiratory care or patient monitoring
- Academic background (master degree)
- Fluent in English, conversational German
- Eager to excel and develop in a dynamic environment

Keen on contributing to our growth?

We look forward to getting to know you!

Please send your complete application to our recruiting partner Schenk+Partner, tc@schenkpartner.ch.
